

VideoCheck® HA with SEMI certification

With length measurement errors of MPE E_{uni} of up to $(0.25 + L/900) \mu\text{m}$ and $(0.15 + L/2000) \mu\text{m}$ respectively, the VideoCheck® HA and VideoCheck® UA are the world's most accurate multi-sensor coordinate measuring systems. The industry association SEMI (Semiconductor Equipment and Materials International) issues international safety standards for the use of the machines in nano- and microelectronics production.
